

## ***Four Best Practices for Documenting in the Field***

### **1. Follow the rules there & always ask for permission**

*-Consent is an ongoing process, check in with the people you're filming/photographing*

*-Respect and listen to the rules/guidelines of the place*

### **2. Over prepare in terms of safety and protection**

*-Always get or make a press badge, will help identify you and may help if there is police presence*

*-Use a zoom lens to get close up shots without being in the way*

### **3. Use your best judgement**

*-Fine line between something being too sacred to capture and something being so special it needs to be captured*

### **4. Follow the photographers guide to inclusive photography**

*-A detailed guide by Authority Collective*
